49 North Carolina Attorney General’s Opinions
School of Government, UNC Chapel Hill

The School of Government at the University of North Carolina at Chapel Hill works to improve the lives of North Carolinians by engaging in practical scholarship that helps public officials and citizens understand and strengthen state and local government. Established in 1931 as the Institute of Government, the School provides educational, advisory, and research services for state and local governments. The School of Government is also home to a nationally ranked graduate program in public administration and specialized centers focused on information technology, environmental finance, and civic education for youth.

As the largest university-based local government training, advisory, and research organization in the United States, the School of Government offers up to 200 classes, seminars, schools, and specialized conferences for more than 12,000 public officials each year. In addition, faculty members annually publish approximately fifty books, periodicals, and other reference works related to state and local government. Each day that the General Assembly is in session, the School produces the Daily Bulletin, which reports on the day's activities for members of the legislature and others who need to follow the course of legislation.

Operating support for the School of Government’s programs and activities comes from many sources, including state appropriations, local government membership dues, private contributions, publication sales, course fees, and service contracts. Visit www.sog.unc.edu or call 919.966.5381 for more information on the School’s courses, publications, programs, and services.

Open Meetings and Local Governments in North Carolina: Some Questions and Answers
Seventh edition, 2007
DAVID M. LAWRENCE
The seventh edition reflects several North Carolina Court of Appeals decisions made under the open meetings statute since publication of the sixth edition in 2002. The book details the provisions of North Carolina’s open meetings law in a question-and-answer format and includes the text of the law. It also includes eighteen new questions and significant modifications to ten others.

North Carolina Juvenile Code and Related Statutes Annotated with CD-ROM
2007 edition
PUBLISHED BY LEXISNEXIS
This publication is an annotated compilation of North Carolina’s Juvenile Code and other selected statutes relating to children. The new edition and accompanying CD-ROM include all statutory changes enacted by the General Assembly through the end of the 2007 session. The Juvenile Code includes laws and procedures that apply to young people who are delinquent or who engage in undisciplined conduct. It also contains laws relating to child abuse, neglect, and dependency; termination of parental rights; and the Uniform Child Custody Jurisdiction and Enforcement Act, which applies to cases involving these matters.

Public Schools and Pregnant and Parenting Adolescents: A Legal Guide
2004
ANNE M. DELLINGER
This publication explains the relatively clear legal requirements applicable to pregnant and parenting students, offers interpretation of less-clear parts of the law, and ventures predictions about several unresolved legal questions. It refers to the literature on adolescent pregnancy and relays advice from school professionals and others. The publication is designed to make caring for pregnant and parenting adolescents easier and to help ensure they benefit as much as possible from their schooling. It is intended for superintendents, principals, school board members, school attorneys, counselors, school nurses and psychologists, social workers, teachers, administrators, and state education officials.

This is the third in a series explaining the law to pregnant and parenting adolescents, their parents, and the professionals who work with them. The series was supported by the Z. Smith Reynolds Foundation, the School of Government at UNC Chapel Hill, the Karl and Anna Ginter Foundation, and the Mary Norris Preyer Fund. Other books in the series are Health Care for Pregnant Adolescents: A Legal Guide, Social Services for Pregnant and Parenting Adolescents: A Legal Guide, and Pregnancy and Parenting: A Legal Guide for Adolescents and Their Parents. All in the series are now available online at www.adolescentpregnancy.unc.edu.

Closed Sessions under the Attorney–Client Privilege
Local Government Law Bulletin No. 103
April 2002
DAVID LAWRENCE
This article provides a detailed legal discussion of issues involved when a public body holds a closed session to preserve the attorney–client privilege. It is available as a free download at www.sog.unc.edu.

Legal Guide to Public Employee Free Speech
Third edition, 2002
STEPHEN ALLRED
This important book examines the legal principles governing the First Amendment right of public employees to speak on matters of public concern and the right of public employers to maintain an efficient workplace. It is written to be helpful to lawyers and non-lawyers alike.

The Law of Employment in North Carolina’s Public Schools
2000
ROBERT P. JOYCE
This book explains both the employment powers and responsibilities of school employers and the rights of school employees. It covers aspects of federal law, North Carolina statutory and common law, state board of education regulations, and local board of education policies.

Public School Volunteers: Law and Liability in North Carolina
1999
INGRID M. JOHANSEN
Volunteer involvement in North Carolina public schools is steadily increasing, yet few local school boards have official procedures governing volunteer matters. Now is the time for school boards and administrators to adopt plans for screening, training, and supervising volunteers. This publication provides guidelines for developing these policies, addresses liability issues for both schools and volunteers, and discusses the benefits of implementing a school volunteer program. It will be helpful to school volunteers, school boards, and administrators.

Public Records Law for North Carolina Local Governments
1997 book and 2003 cumulative supplement
DAVID M. LAWRENCE
In addition to examining the contours of the public’s right of access to public records held by North Carolina local governments, this book reflects a 1992 ruling by the North Carolina Supreme Court that endorses a broad definition of public record, holding that only the General Assembly may establish exceptions to the public’s right to access and copy public records. Although the book focuses mainly on local governments, much of this information will also be useful to officials in state government. A new 2003 cumulative supplement discusses changes and developments in North Carolina public records law from 1999 through 2003 as well as important cases decided in other jurisdictions during that period.

Suggested Rules of Procedure for Small Local Government Boards
A. FLEMING BELL, II
This publication is designed for local boards, from ABC and social services boards to boards of elections, planning boards, boards of education, and area mental health authorities. It covers subjects such as the use of agendas, the powers of the chair, citizen participation in meetings, closed sessions, minutes, and the use of procedural motions. The book contains helpful appendices that summarize the requirements for each procedural motion and list other statutes applicable to particular local government boards.

Reaching for Higher Ground in Conflict Resolution: Tools for Powerful Groups and Communities
2000
JOHN B. STEPHENS, E. FRANKLIN DUKES, AND MARINA A. PISCOLISH
A book for anyone and everyone who works in and with groups—managers, committee chairs, team leaders, nonprofit directors, consultants, mediators, facilitators, teachers, and trainers. This publication presents an original approach to group problem solving and conflict transformation. It shows how the development and maintenance of processes more productive and inspiring than typical group rules can create authentic community and sustainable agreements in group settings. The authors draw on their facilitation, mediation, and training experiences to help groups move toward higher ground in the arenas of education reform, environmental issues, public health matters, family tensions, church denomination policy, and other areas. Includes an index. Published by Jossey-Bass Publishers, San Francisco.
